Category or categories of products as reffered to in Article 35(7) of Regulation (EU) 2018/848 of the European Parliament an of the Council (1) and production method:	□ Export						
a) unprocessed plants and plant products, including seeds and other plant reproductive material Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production □ livestock and unprocessed livestock products Production method: □ organic production excluding during the conversion period □ production during the conversion period □ production during the conversion period □ organic production with non-organic production c) algae and unprocessed aquaculture products Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic products, for use as food Production method: □ organic production excluding during the conversion period □ production during the conversion period □ production during the conversion period □ production method: □ Production method: □ Production of organic products □ Production of in-conversion products □ Production method: □ Production method: □ Production of organic products □ Organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production wich on-organic production □ production during the conversion period	(I.6) Category or categories of products as ref	fered to in Article 35(7) of Regulation (El	U) 2018/848 of the European Parliament an of			
Production method:							
organic production excluding during the conversion period production during the conversion period organic production with non-organic production Dilivestock and unprocessed livestock products Production method: Organic production excluding during the conversion period production during the conversion period organic production with non-organic production organic production with non-organic production organic production excluding during the conversion period organic production excluding during the conversion period organic production excluding during the conversion period organic production with non-organic production organic production with non-organic production organic production with non-organic products, for use as food Production method: organic production excluding during the conversion period organic production with non-organic production Production method: Production of organic products Production of in-conversion products Organic production with non-organic production Production method: Production of organic products Production method: Production of in-conversion products Organic production with non-organic production Organic production with non-organic production Organic production with non-organic production Organic production with non-organic production Organic production with non-organic production Organic production with non-organic production Organic production with non-organic production Organic production with non-organic production Organic production of non-organic production Organic production with non-organic production Organic production with non-organic production		cis, including seeds	and other plant	reproductive material			
organic production with non-organic production b)livestock and unprocessed livestock products Production method: organic production excluding during the conversion period production during the conversion period organic production with non-organic production organic production with non-organic production organic production excluding during the conversion period production method: organic production excluding during the conversion period production of organic products Production method: Production of in-conversion products production method: production of in-conversion production (EU) 2018/848 or not covered by previous categories production during the conversion perio		during the convers	ion period				
b)livestock and unprocessed livestock products Production method: organic production excluding during the conversion period production during the conversion period organic production with non-organic production c) algae and unprocessed aquaculture products Production method: organic production excluding during the conversion period production during the conversion period production during the conversion period organic production with non-organic production d) processed agricultural products, including aquacultural products, for use as food Production method: organic production excluding during the conversion period production during the conversion period production during the conversion period production method: Production method: Production of organic products Production of in-conversion products organic production with non-organic production f) Wine Production method: Production of in-conversion products production of in-conversion products production of in-conversion products organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: organic production excluding during the conversion period production during the conversion period			·				
Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production c) algae and unprocessed aquaculture products Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production d) processed agricultural products, including aquacultural products, for use as food Production method: □ organic production excluding during the conversion period □ production during the conversion period □ production during the conversion period □ production with non-organic production e) Feed Production method: □ Production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of in-conversion products □ production of in-conversion products □ production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ organic production excluding during the conversion period □ production during the conversion period							
□ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production c) algae and unprocessed aquaculture products Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production d) processed agricultural products, including aquacultural products, for use as food Production method: □ organic production excluding during the conversion period □ production during the conversion period □ production with non-organic production e) Feed Production method: □ Production of in-conversion products □ production of in-conversion products □ production method: □ Production of in-conversion products □ production of organic products □ production of in-conversion products □ organic products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
production during the conversion period		during the convers	ion poriod				
□ organic production with non-organic production c) algae and unprocessed aquaculture products Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production d) processed agricultural products, including aquacultural products, for use as food Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production e) Feed Production method: □ Production of organic products □ Production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of organic products □ Production of in-conversion products □ production of in-conversion products □ production of production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period			ion period				
c) algae and unprocessed aquaculture products Production method: organic production excluding during the conversion period production during the conversion period production with non-organic production d) processed agricultural products, including aquacultural products, for use as food Production method: organic production excluding during the conversion period production during the conversion period organic production with non-organic production e) Feed Production method: Production of organic products organic production with non-organic production f) Wine Production method: Production method: Organic production products Organic production with non-organic production g) other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: Organic production excluding during the conversion period production during the conversion period							
□ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production d) processed agricultural products, including aquacultural products, for use as food Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production e) Feed Production method: □ Production of organic products □ production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of in-conversion products □ production of in-conversion products □ production forganic products □ production of in-conversion products □ production of in-conversion products □ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
□ production during the conversion period □ organic production with non-organic production d) processed agricultural products, including aquacultural products, for use as food Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production e) Feed Production method: □ Production of organic products □ Production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of organic products □ Production of in-conversion products □ production of in-conversion products □ production of in-conversion products □ production fin-conversion products □ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period	Production method:	•					
□ organic production with non-organic production d) processed agricultural products, including aquacultural products, for use as food Production method: □ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production e) Feed Production method: □ Production of organic products □ Production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of organic products □ Production of in-conversion products □ Production of in-conversion products □ Organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
d) processed agricultural products, including aquacultural products, for use as food Production method: organic production excluding during the conversion period production during the conversion period organic production with non-organic production e) Feed Production method: Production of organic products Production of in-conversion products organic production with non-organic production f) Wine Production method: Production of organic products Production of in-conversion products Organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: Organic production excluding during the conversion period production during the conversion period							
Production method: organic production excluding during the conversion period production during the conversion period organic production with non-organic production Preduction method: Production of organic products Production of in-conversion products organic production with non-organic production Wine Production method: Production method: Production of organic products Organic production products Organic production with non-organic production Production of in-conversion products Organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: Organic production excluding during the conversion period Production during the conversion perio							
□ organic production excluding during the conversion period □ production during the conversion period □ organic production with non-organic production e) Feed Production method: □ Production of organic products □ production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of organic products □ Production of in-conversion products □ production of in-conversion products □ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
□ production during the conversion period □ organic production with non-organic production e) Feed Production method: □ Production of organic products □ Production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of organic products □ Production of in-conversion products □ Production of in-conversion products □ Organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
e) Feed Production method: Production of organic products Production of in-conversion products organic production with non-organic production f) Wine Production method: Production of organic products Production of in-conversion products organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: organic production excluding during the conversion period production during the conversion period							
Production method: Production of organic products Production of in-conversion products organic production with non-organic production f) Wine Production method: Production of organic products Production of in-conversion products organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: organic production excluding during the conversion period production during the conversion period	organic production with non-organic production						
□ Production of organic products □ Production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of organic products □ Production of in-conversion products □ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period	,						
□ Production of in-conversion products □ organic production with non-organic production f) Wine Production method: □ Production of organic products □ Production of in-conversion products □ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
□ organic production with non-organic production f) Wine Production method: □ Production of organic products □ Production of in-conversion products □ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
f) Wine Production method: Production of organic products Production of in-conversion products organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: organic production excluding during the conversion period production during the conversion period							
□ Production of organic products □ Production of in-conversion products □ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period	f) Wine						
□ Production of in-conversion products □ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
□ organic production with non-organic production g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method: □ organic production excluding during the conversion period □ production during the conversion period							
g)other products listed in Annex I to Regulation (EU) 2018/848 or not covered by previous categories Production method:							
Production method: organic production excluding during the conversion period production during the conversion period							
 □ organic production excluding during the conversion period □ production during the conversion period 							
	□ organic production excluding during the conversion period						
□ organic production with non-organic production							
This document has been issued in accordance with Regulation (EU) 2018/848) to certify that the operator complies with that		ce with Regulation (EU) 2018/848) to	certify that the operator complies with that			
Regulation. (I.7) Date, place (I.8) Certificate:
